Years experience in GOS: qualified Oct 2017, 2.5 years experience

Please provide a personal statement explaining any skills or experience that you feel may be relevant to help you fulfill your role as a committee member and what you feel you can add to the LOC : -

I believe I am a good fit to fulfil the role as a committee member due to my thirst for improvements and advancement in the field of optometry. I am accredited on the MECS, IOP refinement, pre and post cataract pathways. I am also interested in completing the GERS pathway to continue moving forward in my career and making the most of the available opportunities. I have become a senior optometrist recently and I believe that this role on the committee will help integrate myself further into the optics community and further support my development in this role. I am interested in looking at further pathways and ways in which community optometry can help to support out colleagues in the hospital and continue broadening the experience and roles of community optometrists. I feel that being part of the committee will give me the opportunities to address this with my fellow colleagues and see first-hand what can be done for the progression within the area.

I agree to serve on the LOC: Name: Gurkiran Boparai
