Years experience in GOS: 2.5 years

Please provide a personal statement explaining any skills or experience that you feel may be relevant to help you fulfill your role as a committee member and what you feel you can add to the LOC :-

In the past 3 years, I have had the privilege of working for multiple companies where I gained an understanding of how the optometry field differs within regions. In addition, I have completed many enhanced service modules and qualifications that have allowed me to experience the effects of Wolverhampton LOC on stores within its region. I am a keen observer and have gained skills in effective communication within my new role as senior Optometrist in Specsavers Wolverhampton, where I liaison between all the professional optometric staff and the shop floor. I am keen to implement services to enhance the patient journey within the practices in the region and would relish the opportunity to help the optometrist in the region to improve and enhance their skillset with current and relevant CET.

I feel I can add a fresh perspective to the LOC, where I can express and relate to the changes in perspective of newly qualified optometrists. I can also add the experience of an optometrist who actually uses the tools and services the LOC has put into place. I can provide insight on what is successful and what needs to be changed and improved. I also feel my master's in Health Evaluation will provide a unique opportunity for me to assist in the administration and clinical governance work the LOC does.

I feel the LOC would provide an opportunity for me to understand the time and effort that is needed to create and implement services. I feel this experience will provide me with a fresh perspective and a humbling experience.

I agree to serve on the LOC: Name: Harlean Kaur Gill
